

The Seminar on Co-ordinate to establishment a Transport Database in Vietnam

Client: Transport Development and Strategy Institute

Period of Appointment: 2002

Transport Development and Strategy Institute (TDSI) of Vietnam has invited AMP Consultants Ltd to participate the Seminar on Co-ordinate to Establishment a Transport Database in Vietnam and to present the experience on Database Structure in Thailand.

AMP Consultants Ltd was a representative of the transport database expert in Thailand, who has experienced and developed a centre of Transport Database at the Office of Transport and Traffic Policy and Planning, Ministry of Transport.

The seminar was held in Hanoi on 20th - 25th January 2002. The participants were from World Bank, Asian Development Bank, United Nations Development Programme, JICA and Private Sectors (eg WSPI) including other related agencies.

The topics in seminar are:

- Transport Database of the Vietnam Transport Sector
- Transport Database Structure and Thai Experiences
- Network and Urban Transport Database
- Rural Transport Database
