

Integration of the local highway network and rural roads

Client: Department of Rural Roads (DRR)

Period of Appointment: 2014-2015

AMP Consultants Ltd. advised the Department of Rural Roads on the integration of local road networks and rural roads in association with PTE Engineering Consultants Ltd.

This commission was a continuation of the Study and Master Plan project to develop the local highway network (Phases 1, 2 and 3) and the development of a database for projects to integrate local roads and rural roads (Phases 1 and 2). The aim was to provide guidelines for the analysis and prioritization of projects to integrate the rural road network with local roads. The work included compilation of a database of rural roads and local roads; the planning and development of networks in each province; and mapping at the district and local level in 32 Provinces.

Key Activities: Local investigations, seminars, workshops and development of a database of information on transport and traffic, models for analysis, and a network development plan.
