

# TRIPS Training in Transport Data and Model Center Project (TDMC)

Client: Office of Transport and Traffic Policy and Planning  
 Period of Appointment: 1997 to 2001

AMP Consultants Ltd with JMP Consultants Ltd and ESRI has been commissioned by the Office of Transport and Traffic Policy and Planning (OTP) of the Royal Thai Government, under TDMC project, to develop and maintain a suite of Transport Models for suitable application in Thailand by using TRIPS software.

During the project, AMP Consultants Ltd has arranged on the TRIPS training and Models Workshops for 80-120 staffs of OTP and related agencies every 6 months in order to strengthen capacity of the Government staff to use TRIPS Software as a tool for analysis, forecasting the traffic.

The titles on training are as below:

- TRIPSWIN Structure
- Network Building
- Matrix Building
- Assignment
- Capacity Restraint
- Junction Coding
- Public Transport
- Application of Public

The workshops has been demonstrated the development of OTP models and understanding of staffs for using Models, namely; NAM, BMR-ECM, and LAM.
