

# In - House Advisor to Department of Traffic and Transportation

Client: Department of Traffic and Transportation,  
Bangkok Metropolitan Administration

Period of Appointment: 1996 to 1998

During the period of 1996 to 1998 while the City of Bangkok was introducing a Bangkok Transport Management System and Modern Computerised Coordinated Traffic Control System (ATC) to reduce congestion, improve air quality and provide the necessary co-ordination between the different modes of transport, then Bangkok Metropolitan Administration Department of Traffic and Transportation appointed AMP Consultants Ltd as a specialist in-house consultant working in two main areas of work:

- Area Traffic Control to provide technical assistance on ATC installation contract monitoring.
- Traffic and Transportation Issues to provide assistance, instruction and demonstration on the Use of Traffic Models, Traffic Signal Technology, Traffic Data Base, Traffic Engineering and Forecasting, the Role of Strategic Planning and Air Quality Monitoring.

AMP Consultants Ltd also produced designs and contract documentation for a new state-of-the-art ATC system including road network management and automatic incidence detection for further development of work for the Department of Traffic and Transportation .
