

Hat Yai - Songkhla Mass Transit Study

Client: Prince of Songkhla University for Expressway and Rapid Transit Authority of Thailand

Period of Appointment: 1995

AMP Consultants Ltd acted as a specialist adviser to the Hat Yai-Songkhla Transportation Study for the Expressway and Rapid Transit Authority of Thailand. The mass transit options between Hat Yai-Songkhla were carefully examined in more detail.

The works included

- Review of previous traffic and transport studies.
- Traffic data collection
- O-D information and surveys
- Travel demand forecast
- Suggestions on general and specific measures to improve safety and reduce congestion
- Preliminary feasibility study for potential mass transit: Light Rail Transit and Kerb Guided Trolley Bus which was considered to meet the needs of Hat Yai city.
- The system outline design and costing, and advice on further comprehensive data collection and on the prediction of modal transfer to mass rapid transit systems.
