

Design and Implementation of Cash Distribution Planning Software for Krungthai Bank

Client: Spatial Dimension Solutions Co. Ltd.

Period of Appointment: 2010-2011

AMP Group worked with Spatial Dimension Solutions Co. Ltd. on the design and development of a route planning system as part of the Krungthai Bank (KTB) Logistics (Routing) Project to provide support for the Krungthai Cash Center (KCC), the Krungthai Cash Information Management (KCIM) System and the Krungthai Cash Optimization System.

The objectives of the AMP work were to reduce logistics costs and improve the efficiency of the transport management system. The work consisted of (i) software development; (ii) preparation of software for transport planning; and (iii) surveys of routing and data in accordance with the network analysis of the bank.
