

Advisory Service on the Development of Resource Utilization and Collaboration Plan for Transport Co. Ltd.

Client: Transport Co. Ltd. (TCL)

Period of Appointment: 2011

AMP Consultants Ltd. advised the Transport Company Ltd. (TCL) on the formulation of a Resources Use Plan and measures to improve co-operation between the different enterprises of TCL. The aims of the work were to maximize benefit from implementation of the mission statement, policies and strategies of the company and to reduce duplication of its investments to improve efficiency, add value and increase competitive capability. A key part of the work was an action plan for 2011 that complied the TCL's long-term plan.

The work included (i) an analysis of the efficient use of resources from investment projects and from assets such as land, buildings and machinery supported by in-depth interviews; (ii) the formulation of guidelines for resource usage and cooperation in various fields to ensure effective integration, added value and competitiveness, and (iii) the preparation of an annual action plan and long-term plan (5-year plan).
