

The Study on Local Road Database Development and Road Integration

Client: Department of Rural Roads (DRR)

Period of Appointment: 2012-2013

AMP Consultants Ltd. and PTE Engineering Consultants Co. Ltd. were appointed by the Department of Rural Roads (DRR) to develop a database for the rural roads network and to advise on the integration of local highway networks. This project was a continuation of Phases 1, 2 and 3 of the earlier study and master plan to develop the local highway network.

The aim was to provide guidelines for the analysis of the rural road network with the aim of integrating rural highways and local roads. A database of rural roads and local roads was compiled supported by mapping at district and local levels and plans were developed for developing networks in each province.

Key Activities: Local investigations, seminars, workshops and development of a database of information on transport and traffic, models for analysis, and a network development plan.
