

# The Formulation of National Skill Standard for Logistics Industry

**Client:** Thai Logistics and Production Society (TLAPS)

**Period of Appointment:** 2011-2012

AMP Consultants Ltd. was commissioned by TLAPS to advise the Department of Skill Development to produce draft national skill development standards for four logistics professions in accordance with the needs of the logistics industry and business organizations taking account of the skill standards of Asean countries.

The work included (i) drafting a logistic industrial functional map; ii) selecting four logistic professions; (iii) preparing a draft national skill standard; (iv) providing guidelines on competency standard and assessment; and (v) assessing personnel management requirements.
