

The Study on Local Road Development Master Plan (Phase 2)

Client: Department of Rural Roads (DRR),
Ministry of Transport

Period of Appointment: 2010

AMP Consultants Ltd. and PTE Engineering Consultant Co. Ltd. were commissioned by the Department of Rural Roads to develop the 2nd phase of its rural local road master plan in order to improve the rural local road improvement budgetary processes of local administrative organizations. The focus of Phase 2 was mainly on roads serving local communities.

Key tasks included (i) the review and recommendation of improvements in the budgetary process for rural local road improvement; (ii) collection of data from all local administrative organizations concerning rural local roads that needed to be improved (including those in the master plan Phase 1); (iii) establishment of an evaluation process for prioritizing the proposed roads in the master plan; and (iv) development of a database and evaluation system for rural local roads.
