

# The Study on Local Road Development Master Plan (Phase 1)

**Client:** Department of Rural Roads (DRR),  
Ministry of Transport

**Period of Appointment:** 2008-2009

AMP Consultants Ltd., PTE Engineering Consultant Co. Ltd., and Seven Associates Consultant Co. Ltd. were commissioned by DRR to develop the first phase of its rural local road master plan. The aim was to improve the budgetary processes of local administrative organizations for rural local road improvement. The focus of Phase 1 was primarily on interconnecting roads to local communities.

Key tasks included (i) collecting data on rural local roads that needed to be improved from all local administrative organizations; (ii) establishment of an evaluation process for prioritizing the proposed roads in the master plan using criteria related to economic and social development, engineering, and land-use; and (iii) development of a GIS/MIS database and evaluation system for rural local roads.
