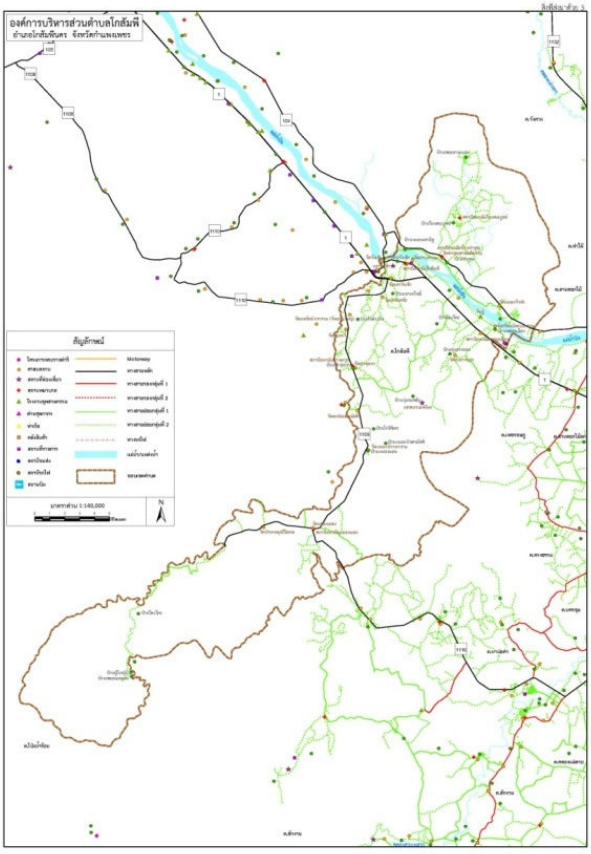
Integration of the local highway networks and rural roads

Client: **Department of Rural Roads (DRR)**

Period of Appointment: 2013-2014

AMP Consultants Ltd. and PTE Engineering Consultants Ltd. were appointed by the Department of Rural Roads to advise on the integration of local road networks and rural roads.



This commission was a continuation of the Study and Master Plan project to develop the local highway network (Phases 1, 2 and 3) and the development of a database for projects to integrate local roads and rural roads (Phase 1). The aim is to provide guidelines for the analysis and prioritization of projects to integrate the rural road network with local roads. The work includes compilation of (i) a database of rural roads and local roads; (ii) the planning and development of networks in each Province; and (iii) mapping at the district and local level in 36 Provinces.

Key Activities: Local investigations, seminars, workshops and development of a database of information on transport and traffic, models for analysis, and a network development plan.
