

Master Plan of Urban Planning for Bangkok Metropolitan Area Phase 2

Client: Bangkok Metropolitan Administration

Period of Appointment: 2002 to 2003

AMP Consultants Ltd has assisted the Krungthep Thanakom Ltd on the Second Revise of Bangkok Land-use Master Plan as the transport planner.

It is time to update the Land-use Plan. Then, it will be used as a tool to develop the city of Bangkok. Therefore, the BMA has initiated a project so called "Urban Planning Improvement Phase II" to revise the Master Plan.

Namely, AMP Consultants Ltd is then to be awarded as a consultant in transport planning. AMP Consultants Ltd is mainly responsible on the transportation network analysis eg. Roads, waters, rails and airs with related to the Land-use Improvement Plan.

The study has been forecasted and analysed the traffic volume in BMR on year 2001, 2006 and 2011. That are concerned to the population growth, traffic growth and land-use plan. At the finally, there is a transport system plan for Bangkok Master Plan.
